hilltopforge My new toy showed up today after what seemed like forever. I never would have dreamed I could manage to purchase such a kickass tool. All the extra hours in the shop (and selling off a few extra toys) really paid off. So here it is my 88lb ST Anyang forging hammer. Now I need to pour a concrete peer, and fill the base with sand or lead.

lily_hengstenberg I'm so proud of you for following your dreams. Samuel!

hilltopforge @lily_hengstenberg thanks Tiny!

m_tausig I believe the correct description of the emotion I'm having is EXTREME ENVY!
